- Github

ABOUT ME

My name is Mouk Makara. I am studying for the third year of a bachelor's degree in computer science and engineering at the (RUPP) royal university of Phnom Penh and CSTAD (CENTER OF SCIENCE AND TECHNOLOGY ADVANCED DEVELOPMENT).

EXPERIENCE

WEB DEVELOPMENT FUNDAMENTAL

CERTIFICATE OF COMPLETION

Has successfully completed the foundation training course of 2nd generation of "Web Development Fundamental" This training course comprises 350 hours and validates technical skills in web development such as UX/UI Design, ReactJS, Java Programming, Database Essentials, and Version Control System.

SHORT COURSE SPRING FRAMEWORK

CERTIFICATE OF COMPLETION

This course introduces the Spring Framework and how to build RESTful APIs using Spring MVC, Spring Data JPA, Data Access with MyBatis, Basic Security, JSON Web Token (JWT) etc.

OBJECTIVE

- Learn the basics of Spring Framework and Spring Boot.
- Understand how to create RESTful APIs with Spring.
- Implement security in web applications using JWT.
- Use MyBatis for data access and manipulation.
- Develop and deploy a mini REST API project.
